Construction Notice

The City of Sycamore has contracted Behm Pavement Maintenance of Crystal Lake, IL to complete the 2017 Crack Sealing Program. This work involves placing rubberized asphalt crack sealant into existing cracks and seams in the asphalt roadway. This process extends the useful life of the roadway by slowing the growth of existing and future cracks.

This work is scheduled to start on Wednesday October 18th and continue for approximately two weeks. Work normally lasts 2 days on each street. After the material has been placed, City crews will be sweeping the street to remove any construction debris.

Construction signs will be placed prior to the start of work. Please obey all **CONSTRUCTION AHEAD** and **NO PARKING** signs until these signs are removed.

The attached list and map represent the affected streets in ranked order. The contractor will follow this same order when completing work. Please note that not all streets may be completed, depending on the material required to complete higher ranking streets.

The City of Sycamore appreciates your patience during this project. The tentative schedule outlined above may change from time to time depending on weather conditions, availability of labor, materials and equipment, etc. If you have any questions about this project, please contact the Sycamore Engineering Department at 815 895-4557.

NO.	NAME OF STREET	LIMITS
1	SANDCASTLE DRIVE	FREED ROAD TO FABIEN DRIVE
2	FABIEN DRIVE	SANDCASTLE DRIVE EAST TO END OF STREET
