Addendum No. 3**

All General Conditions and Information for Bidders shall apply. The following changes have been made in the specifications:

1. The attached Section 00 54 00 Schedule of Values is to replace the original. The original document did not include a line for part 13 00 00 in the total project.

Acknowledge this Addendum per Page 1 of the Bid Agreement Form.

SECTION 00 54 00
SCHEDULE OF VALUES

SECTION 09 00 00:	\$ _____
SECTION 13 00 00:	\$ _____
SECTION 16 00 00:	\$ _____
PROJECT TOTAL:	\$ _____

1.02 TOTALS

A. Project Total Base Bid is to match total Base Bid price supplied in Bid/Agreement form.

1.03 MISTAKES

- A. Project Total of Schedule of Values paragraph should equal sum of individual items. If the addition of individual items does not match total, then each individual item will be added again and the math corrected.
- B. A mistake in addition for schedule items cannot be used to increase lump sum bid. If Bid correction results in an increased price, then Owner may accept, may request Bidder to reduce all individual item prices proportionally, or may reject Bid.
- C. Mistakes discovered after Award, even after completion will adjust Price downward only. It is the Contractor/Bidders responsibility to recheck prices prior to Award.
- D. A mistake in Schedule of Values may be used as evidence of error in any request to withdraw bids because of error. Approval of request to withdraw bids is covered in the Information for Bidders. This section is not intended to conflict any portion of the bid package. Approval of bid withdrawal will be based solely on the Owner's interpretation of the severity of the mistake.

1.04 CHANGES in SCHEDULE of VALUES by OWNER

A. The owner reserves the right to delete any line item of Part 1.01 adjusted line item; except for coating work, at their sole discretion for any reason. All contract general

- costs (mobilization, demobilization, bonds, etc.) should be evenly distributed over the coating items which are not subject to deletion.
- B. The Bidder/Contractor is advised not to overload any specific deductible line item. It could result in loss of profit if the overload item is deleted.
 - C. This deletion of items or not including alternates is an expressly stated reservation (a contractually agreed automatic negotiation). Any deletion of specific line items will be completed before selection of the lowest responsible/responsive Bidder. Change will be reflected in the Notice of Award (NOA).

1.05 NON-DELETABLE WORK BEFORE and AFTER NOA

- A. Bidders are advised that all line items except for base bid coating work may be deleted from the project prior to award. Any deletion of line items, or increase or decrease in unit cost items deemed necessary after the Notice of Award, will be completed through the Change Order procedure. Prices used in the Schedule of Values will be used in the Change Order adjustment.
